in Interior Space and Exhibition Design Category, 2013 - 2014.

Office Interior of Mundipharma Singapore by Priscilla Lee Pui Kee

Office Reception: The décor of the reception area creates a very modern feel to the office, like a new face-lift, complete with circular lights, full glass panels, frosted stickers, white marble counter, coloured chairs and various geometrical shapes to top it off. The bright and bold design is an indication of the designer's intention to bring out the corporate image, especially with the blending of the company logo in the feature wall. Together with meticulous layout of lighting in strategic areas, the reception area is loud in terms of design and yet silently presents its aesthetic appeal.
